LANDING OUT

If Romorantin 2007 has beaten all records of outlandings - 161 « VACHES» Szeged 2009 has beaten all records of VERY FEW vaches : ONLY 19 on 9 task-days – 49 pilots! The crews of the large German team, also of the large French team never had to drive out to get their pilots back home.

On the way to the airfield of Szeged everybody has probably well examined the situation of possible outlanding fields : the large mais fields had not yet been cut, neither were the large fields of sunflowers. Serious warning, apparently taken seriously by all arriving pilots.

“Champion” of outlandings was Andrea Barna, the Hungarian representative of Turkey : 9 times her husband /team captain had to take the road to get his wife back in Szeged- only on days 3, 4 and 5 did she make it back to Szeged. Only once Akemi Hirotsune of Japan had to be brought back by road
Do I have to add that all outlandings passed without any trouble or damage, proving the very professional safety consciousness of all 49 ladies?

TOTAL 19

THOSE *PRECIOUS* LITTLE POINTS ...

Miss a world title by... 4 little points
 That was the sad fate of Katrin Senne in Szeged 2009
 Her number of points represented 99,94 % of the winning score
 of her compatriot Susanne Schödel

Not the only ever-so-little difference of points.

EXAMPLES:

For the TITLE :

Pocunai 2001 (world championships)

AVERAGE AGE AND NUMBER OF FLIGHT HOURS of the competing ladies

<u>15 M CLASS</u>	46,2 years	2857 hours
<u>Standard class</u>	40,3 years	1823,7 hours
<u>Club class</u>	35,8 years	1286,1 hours
<i>TOTAL:</i>	40,3 years	1923,5 hours

Striking: Far below the average is the French team - 6 pilots
- with **31** years - in spite of Jutta Sturm 48

Of course, with club class champion Nathalie Hurlin -
with **23** years the youngest champion ever !

It is no surprise
